High-Tech Flea Trap

Safe-Guard Your loved Ones

- * Patented New Technology
- * Clear a Room of Fleas Overnight!
- * Developed with Kansas State University

High-Tech Flea Trap is a safe, light, cordless & highly effective device designed to get rid of the fleas in your home over night. High-Tech Flea Trap has under going an extensive laboratory testing, to develop the lighting Relatively narrow-band visible spectrum; Give an effective variable light intensity and color , as well as the lighting pattern, and it uses no chemicals to harm the environment.

The High-Tech Flea Trap works at night while you rest. The dark color design enables the trap to "disappear", maximizing the efficiency of the light to work its magic. Under the High-Tech Flea Trap's magic light you can get a very close look at fleas, which may have been living on you or your loved ones for some time.
